

Workflow Summary

All the details about your workflows at a glance!

Struggling to find the configuration of a project? Workflow summary is just one click away for revealing you all the specific details about workflow configuration in your projects. Need to know which post-function is in action? Find the solution in the summary. Detected a condition generating errors? Quickly find all the workflows in which the condition is working. These, and much more functionalities are possible thanks to Workflow Summary.

excentia Admin Tools makes easy to understand workflow operativeness and project management. What's more! Export it all on a clean and simple PDF!

The workflow summary section is structured as follows:

Project Name A

The name of the workflow

Transition	Source Status	Source Status Properties	Destination Status	Conditions	Validators	Postfunctions	Transition Properties
The name of the transition	Status where it comes from	Properties of the source status	Status where it goes	The list of conditions in the workflow	The list of validators in the workflow	The list of postfunctions in the workflow	The list of transition properties

Where is it?

1. Click on the Project you want to find information from.
2. On the left side panel, click onto Project Settings.
3. On the left hand side panel, you'll find Workflow Summary at the bottom.
