

# SonarQube Issues Breakdown

Since 1.5 version you are able to see SonarQube issues directly in your project tab panel.

A new section has been added to your panel so that you can see all issues of the SonarQube resources linked through the connector.

Issues will be summarized if you have more than one resource key in your settings.

This way, as a manager, you can review your top issues inside your Jira project. All the information in the same place.

If you need issue details, we have provided a link to your SonarQube /SonarCloud instance.
