

# Size Rating

The size rating is based on lines of code.

Lines of code is the number of physical lines that contain at least one character which is neither a whitespace or a tabulation or part of a comment.

The rating will calculate as follows:

- XS, if lines < 1000
- S, if lines between 1000 and 10000
- M, if lines between 10000 and 100000
- L, if lines between 100000 and 500000
- XL, if lines > 500000

Size

1121 lines of code
